📍 Szczecin, Poland
⚙️ Modular car wash, steel construction Lumi

Modern technology

- Proven components from reputable manufacturers, hydraulic installation made of stainless steel, industrial computer control with proprietary software.
- Washing technology available in a compact stainless steel housing (modular version) or on a steel frame for installation in a building or a dedicated container on the car wash site (container version).

Customized solutions

- Two washing technologies: using powder or liquid chemicals (optionally, the possibility of fluid change of the used agent).
- Components tailored to your needs: pumps, boilers, osmosis efficiency, water softener, etc.
- Convenient payment methods: cash (coins, banknotes), credit cards, loyalty cards, mobile payments (smartphone).
- Additional wash programs: active foam, brush, turbo brush, wheel wash, etc.
- A wide range of car wash accessories: increasing the attractiveness of the car wash, reducing costs, protecting components.
- Car wash personalization: the possibility of applying your own logo, any color scheme for advertising elements and control panels, illuminated construction.

 Kiekrz, Poland
 Container car wash, photovoltaics

Save money!

- Additional systems optimizing gas, electricity and water consumption-prepared for the installation of water recovery, saving systems intelligent floor heating, switch between powder / liquid wash, low-pressure programs, lighting control, etc.
- Possibility of powering the car wash with energy from photovoltaic panels and heat pumps.

Carwash Manager

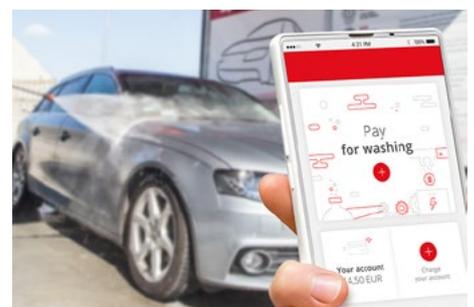

Through a phone or computer, from anywhere and at your convenience. You will find out how much your car wash has earned, check the technical condition of all essential car wash elements, analyze financial statistics - for a single car wash or the entire car wash network. Conveniently and quickly whenever you need.

Loyalty app

We offer an universal API integration for any payment platform, designed for car wash owners, accessible through a mobile app or website.

- Convenient mobile payment (smartphone) for your customers.
- Automatic invoicing.
- Simplified acquisition and handling of fleet customers (taxi companies, transport, trade, etc.).

Over 1800 car washes
in the world

Made in EU

We are a family-owned company with 100% Polish capital. By cooperating with us you can be sure that you are supporting a manufacturer from the European Union.

Experience

For over 30 years, we have been active in the cleanliness and car wash market, completing over 1800 investments in 30 European and Asian countries. We focus on improving our offered products, and our technologically innovative solutions are developed in cooperation with our clients.

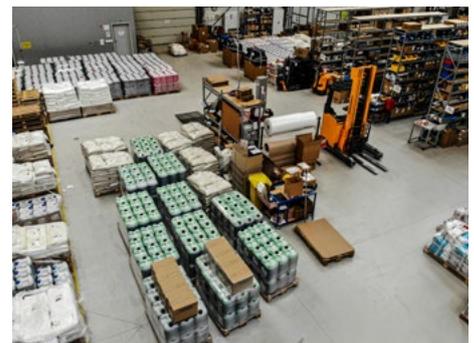

Service support

The entire service process is managed by advanced IT system, so that the car wash runs continuously without unnecessary service interruptions.

After-sales service

We offer convenient online tools to support your car wash operations: reporting faults via the Internet, purchasing chemicals and spare parts through the online store or B2B panel.
